Dear Resident,

Many families are having to tighten their belts at present, and it should be no different for the council. That is why I am determined to fight spending on unsound investments, businesses and novelties like KentTV. The potential loss of £10 million of tax payers' money in Iceland is the biggest loss ever by KCC. Although criticised by the Audit Commission, Price Waterhouse Coopers, and their own internal audit unit, no apology has been given.

I know that small things are often very important in improving the quality of life of residents. At the moment, the state of our roads, pavements, drains and street lights is a disgrace. The 'special relationship' KCC has with its road engineers is simply not working. It must be made to work, or closed down.

We are fortunate to have some very beautiful countryside on our doorstep. Now that the Government has removed protection from the farmland between West Malling and East Malling, it is more important than ever that we get the Green Belt extended to cover it. We have tried before and been stopped by Conservative votes, but we will continue.

I am always anxious to make sure we know what residents think about local issues. That is why we keep you regularly informed throughout the year with Hotline and Headline leaflets, and always ask for your views.

I ask for your vote in this election to carry on this work.

4 things to remember when you vote

- 1 Trudy Dean is the ONLY local candidate with a track record of working hard for this area.
- 2 Trudy is the ONLY major party local candidate. The Labour candidate comes from Snodland, and the Conservative from Stansted.
- 3 ONLY the Lib Dems keep you informed all year round with newsletters and surveys.
- 4 **This election is not about changing the government. It's about choosing the BEST LOCAL PERSON to represent this area on Kent County Council.**

vote

Trudy DEAN
